PROFESSIONAL SUMMARY

Full Stack Developer and AI Engineer with 4+ years of experience building enterprise-grade applications, AI-powered solutions, and high-performance web platforms. Expertise in React.js, Next.js, Node.js, and TypeScript, with hands-on experience in Generative AI, RAG architectures, LangChain/LangGraph, and multi-agent systems. Proven ability to lead end-to-end development, improve system performance, and deliver business-critical solutions that increase operational efficiency and user growth.

EXPERIENCE

Software Engineer (AI & Full Stack) — Plutos One Private Limited *Dec 2024 – Present | Noida, Uttar Pradesh*

- Lead frontend architecture and development of a BBPS-based enterprise-grade ERP platform serving 92+ offline billers, delivering 33+ production-ready modules and increasing operational efficiency by 30%.
- Design and maintain BillerHub, a centralized biller onboarding ecosystem supporting 90+ billers, reducing onboarding timelines by 90% through automated workflows and lifecycle tracking.
- Build and deploy AI-powered chatbot features that use LLM integration to handle user queries in real time, reducing reliance on manual support.
- Develop agentic AI automation workflows that execute multi-step operational tasks across biller onboarding and support, reducing manual handoffs between teams.

Software Developer — Clouwood Studio Private Limited *Aug 2023 – Nov 2024 | Noida, Uttar Pradesh*

- Built and enhanced KeyShare, a cross-platform desktop application using Electron.js, React.js, and Node.js, improving platform stability by 45% and reducing support incidents by 30%.
- Crafted reusable and modular UI components that improved user experience metrics and increased customer satisfaction by 45%.
- Built a fully dynamic corporate website using Next.js and Prismic CMS, reducing content publishing turnaround time by 50%.

Software Developer — Lead Examine Pvt. Ltd *Aug 2022 – Jul 2023 | Noida, Uttar Pradesh*

- Built and deployed responsive CRM solutions that increased lead conversion rates by 20% while reducing manual follow-up efforts by 30%.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), TypeScript, Python, Node.js, Express.js, NestJS, FastAPI, Electron.js, React.js, Next.js, Redux Toolkit

AI & LLM: OpenAI (Chat Completions, Assistants), Claude, Google Gemini, LangChain, LangGraph, RAG, CrewAI, Prompt Engineering, Embeddings, AI Agents, Multi-Agent Systems

Databases: MongoDB (NoSQL), PostgreSQL, MySQL, SQLite (SQL), Vector Databases (Pinecone, FAISS)

Web & Infrastructure: REST APIs, GraphQL, WebSocket, Docker, Kubernetes (basic), AWS, GCP, Firebase, Continuous Integration & Continuous Deployment (CI/CD)

Frontend: HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI, Responsive Web Design

Tools: Git, GitHub, Claude Code, Cursor, Postman, VS Code, Jira, Prismic CMS, n8n

Core Concepts: Data Structures & Algorithms, System Architecture, RBAC, Microservices, System Design, Unit & Integration Testing

Soft Skills: Leadership, Communication, Problem-Solving, Cross-Functional Collaboration

PROJECTS

Kundli Online *(Next.js, OpenAI API)*
Developed a Generative AI-powered astrology platform delivering personalized Kundli reports and real-time horoscope insights through intelligent content generation.

CrewAI Multi-Agent Platform *(CrewAI, OpenAI, Next.js)*
Engineered a multi-agent automation platform that orchestrates research, planning, and content-generation workflows with autonomous AI agents.

MyBeauty AI Platform *(React Native, Google Gemini API)*
Built an intelligent beauty-tech application providing AI-driven skincare analysis and personalized beauty recommendations.

EDUCATION

B.Tech, Computer Science and Engineering — B.B.S College of Engineering & Technology, Prayagraj, Uttar Pradesh | *Aug 2018 – Jun 2022*
Intermediate (12th) — K.P. Hindu Intermediate College, Pratapgarh, Uttar Pradesh (68%) | *Apr 2017 – Mar 2018*

CERTIFICATIONS

- Anthropic: Building with the Claude API, Claude 101, Introduction to Model Context Protocol (MCP)
- Croma Campus: MERN Stack Development
